Carbon Reduction Plan

Supplier name: **Real Wireless Limited**

Publication date: **1 July 2022**

Commitment to achieving Net Zero

Real Wireless Limited is committed to achieving Net Zero emissions by 2040.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions.

Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2022

Additional Details relating to the Baseline Emissions calculations.

Real Wireless is a small company with 10 employees. All of our employees work from home. We provide consultancy services i.e. we do not manufacture or distribute goods of any kind.

As such only Scope 3 emissions relating to working from home and business travel will be baselined.

Baseline year emissions:

EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	0
Scope 2	0
Scope 3	
Home working:	4.84 tCO ₂ e
Business travel:	2.05 tCO ₂ e
Total Emissions	6.89 tCO₂e

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 5.17 tCO₂e by 2027. This is a reduction of 25%.

Future carbon reduction projects will initially research how we can make significant reductions given the modus operandi of the company and the small level of baseline year emissions. We will then develop a number of action plans to achieve carbon reductions.

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹³ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Supplier:
